

What was I before I was soy sauce?  
I was soybeans.

## **How do I grow?**

Soybeans grow on bushes.

The seeds are planted in the spring.

The soybeans grow in pods like peas.

## **What part do you eat?**

We eat the beans that grow in the pods.  
The beans are made into foods.

## **What foods do I make?**

Soybeans are made into oil.  
The oil is used to make salad dressing.  
The beans can also be made into a special milk.  
Soy sauce is used to make foods taste good.
